

**February 22-23rd 2019**

## **Congenital Hand Malformations**

**Chairman: F. Soldado**

**Co-Chairmen: A. Gilbert, P. Raimondi**

**Place:**

**Auditorium Teaching Building  
Hospital Universitari Sant Joan de Déu  
Esplugues de Llobregat  
Barcelona**

Dear friends:

The Sant Joan de Déu Hospital has a long history of treating Congenital Hand Anomalies with Joan Minguella until a few years .

Thus we thought this subject of interest for experienced and younger surgeons .

We wish to promote a maximum of discussions on some crucial topics with the great help of some of the most knowledgeable European surgeons : Rolf Habenicht ( Hamburg ) , Paul Smith ( London).

During that meeting , the presentations will cover most of the subject and , as said before , some topics like : Syndactylies , Polydactylies , Thumb Hypoplasia , Microsurgery , will be explored in depth with face to face and discussions .

We hope to see you in Barcelona in March .

A. Gilbert , P. Raimondi , F. Soldado

**University Hospital Sant Joan de Déu**

**Training**

Passeig Sant Joan de Déu, 2

08950 Esplugues de Llobregat
