

Our Society is committed to increase the quality of care of children, to foster the communication between professionals dealing with children, to improve education, support science and to share advances in knowledge.

Consistent with these values, EPOS seeks to ensure that our mission is applied worldwide and does not support any discriminatory policies. It is the EPOS policy to provide equitable health care and education without any kind of discrimination.

We, as a Society dissociate from any form of discrimination and encourage our members to support these non-discrimination principles consistently in their interactions with colleagues and patients.

On behalf of the Executive Committee

Sincerely,

Jarosław Czubak

EPOS President

Elke Viehweger

EPOS General Secretary
